Ankit Yadav
Role : Junior Software Developer
Contact: 9987266397 | yadavankit68072@gmail.com
Emp Code : 1580

Introduction :

Associate Software Developer with over one year of hands-on experience in web development. Proficient in HTML5, CSS3, JavaScript, jQuery, and React.js, with additional expertise in Magento 2 and basic SQL. Demonstrates strong skills in crafting responsive, user-centric web applications and a keen eye for UI/UX design. Adept at translating client requirements into high-quality, dynamic solutions that enhance user experience. Committed to continuous learning and delivering innovative solutions in a collaborative environment.

Work Experience:

Candere By Kalyan Jewellers | Associate Software Developer
June 2023 – Present

- Design and develop software applications, write clean code, and ensure alignment with requirements.
- Collaborate with cross-functional teams to gather requirements and integrate design and functionality.
- Perform code reviews and debugging to resolve issues and optimize application performance.
- Implement and maintain databases, ensuring data integrity and efficient access.
- Conduct testing and validation to identify and fix bugs, ensuring high-quality performance standards.
